

FROM MES TO AGENTIC OPERATIONS INTELLIGENCE

Insight Master continuously analyzes manufacturing data, identifies hidden losses, uncovers root causes, and recommends the next best actions. It detects opportunities across raw material, product, equipment and operator levels.

DELIVER MEASURABLE BUSINESS IMPACT

 up to 4.5x^(*) More Engineering Capacity Engineers spend less time on reports and more time improving operations.	 up to 30-80%^(*) Faster Root Cause Analysis Identify the true causes of losses in minutes instead of days.	 Hidden Capacity Unlocked Engineers spend less time on reports and more time improving operations.	 Lower Costs & Energy Detect energy anomalies and reduce operational losses.	 up to 2.5x^(*) Higher Profitability Improve throughput, optimize resources, and increase profit.

TURN ENGINEERING TIME INTO BUSINESS RESULTS

BEFORE INSIGHT MASTER

TODAY'S REALITY

Engineers spend too much time on:

Collecting data

Building reports

Investigating losses

Preparing presentations

Reporting	44%
Analysis	36%
Improvements	20%

1x Engineering Capacity
1x Production Capacity

WITH INSIGHT MASTER

Engineers spend more time on:

Solving problems

Eliminating losses

Improving throughput

Driving continuous improvement

Improvements	88%
Reporting	6%
Analysis	6%

4.5x Engineering Capacity
2.5x Production Capacity

CORE CAPABILITIES OF INSIGHT MASTER

AI-Powered Root Cause Analysis
Automatically identify the factors driving losses.

Manufacturing Context Awareness
Analyze production events within operational context.

Scheduled Insights
Deliver the right insights at the right time.

Continuous Improvement Workflows
Standardize and scale improvement practices.

Engineer Leverage
Reduce reporting effort and increase improvement capacity.

ProManage Customer Experiences

"ProManage taught us to compete with ourselves. It enabled us to achieve greater efficiency, increased capacity and faster delivery."

Nebiye Güngördü Yusufoglu
Factory Director

"With ProManage, our production efficiency soared from around 20% to nearly 77%. Our investment paid for itself in just 10 days."

Meltem Özkan
Production Plan. Supervisor

"If we hadn't taken the leap into digital transformation, we wouldn't have entered automotive. Our efficiency rose from 65% to nearly 85%."

Kıvanç Kılıçel
IT & Data Management

"With ProManage our production efficiency skyrocketed from roughly 20% to 70%."

İsmet Özdemir
Factory Manager
